The stunning architectural details make this a truly spectacular home with stone/stucco construction. The covered enclosed outdoor room features a tongue-and-groove hardwood ceiling. There is a second outdoor living space off hearth room. Other outdoor highlights include a lower-level walkout with patio, four-car garage, circle driveway, custom landscaping and a custom wood-and-iron front door. The interior includes a custom-stained wood-and-iron staircase and rail with a second back staircase. The hearth room has a coffered ceiling and stone fireplace. The luxurious kitchen features high-end Thermador appliances, a curved eating bar and oversized island. There are built-in bookshelves in the study, and the two-story great room features a limestone fireplace. The master suite includes custom crown molding and lighting with a coffered ceiling. Custom porcelain tile in the master bath adds a stunning effect. The master closet is outfitted with custom melamine closet shelving. Certainteed Highland Slate roofing and metal standing seam octagon accent.
